DOUBLE CYLINDER (ADVANTAGE IN COMPARISON WITH SINGLE CYLINDER)

MADE IN ITALY PRODUCT

UR FOG
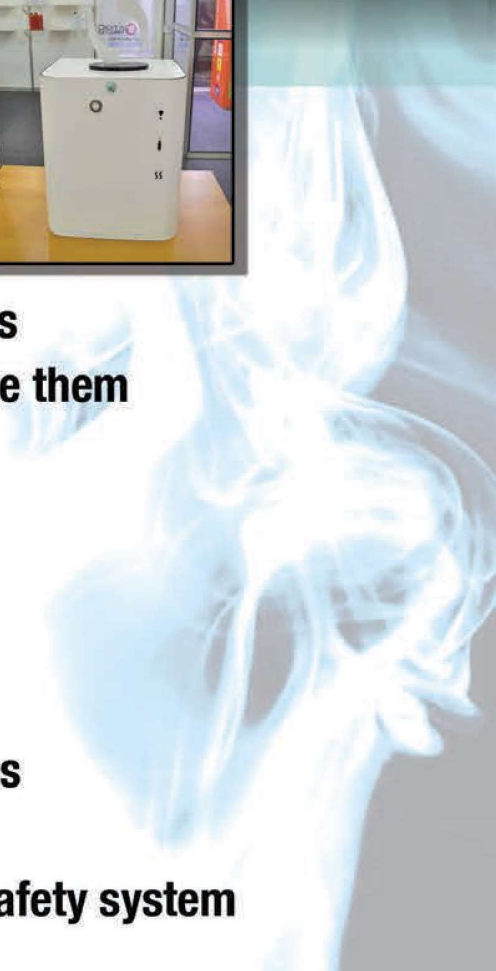

THE FASTEST FOGGING SECURITY SYSTEMS

WHY FOGGING SYSTEMS ARE NEEDED?

Alarm system can just inform about theft but not prevent it. Burglars need less than 3 minutes to make a crime; usually they know exactly where to go and what to take while the police needs at least 10-15 minutes to arrive. That's why you need to use a fogging system to prevent theft from the very beginning and to protect your properties just in some seconds.

WHY TO CHOOSE UR FOG

- The fastest in fog emission
- The most dense fog
- The most persistent fog
- Fog certified as not dangerous for people and animals
- Disposable cylinders with no need to refill or recharge them
- Easy to replace fog cylinders
- Innovative and patented nozzle tamper
- Easy setting of shooting time
- Easy maintenance and on time support
- Low power consumption starting from 37 W
- Complies with all European standards and regulations
- Work for long time without mains power
- Safe and reliable thanks to the double cylinder and safety system
