

# Introducing the **NIGHTWATCHER** 520

## The New NW 520 AC LED plug and play model

- LED light source 1 x 11W AC LED Power Chip
- Robotic Head function that auto rotates the LED head towards any of the 3 motion sensor zones on detection to illuminate the activity
- Intelligent PIR Motion Sensor with 220° detection zone
- Built-in Photocell
- Day/Night mode selecting option

Night Watcher NW 520 is a patented outdoor motion sensing fixture with a robotic rotating light head. When motion is detected in any of the three built-in motion sensor zones, the robotic light head will illuminate and turn towards the motion.

## Key Features

- Aluminium and plastic construction
- Microprocessor controlled auto tracking light head
- Light source: AC power x 1 x 11W LED
- Lumen output: 1300lm +/-10%
- Detection range: 210° x 10 meters+
- Built-in Photocell
- Multi-sensor technology with 3 sensors:
  - 70° for each sensor
- Push button programmable functions:
  - All day mode - 24 hour operation
  - Night Time Mode - Night only operation
- Light on activation time: set at 3 minutes
