CERTIFIED FOG FLUID	yes
MEETS EUROPEAN STANDARD	yes

Powerful and fast fogging system, can cover up to 100 m³ per minute.

FAST FOG

The most dense fog among all the fogging systems thanks to 80% of glycol in its fog fluid and the proprietary shooting technology.

HIGH DENSITY FOG

It is very easy to change and with a very competitive price.

FLUID BAG

Fully battery operated machine in absence of mains power. Activation time in just 2 seconds. AGM battery 70 Ah or more powerful.

BATTERY

Just 0,25 W power consumption, can work more than 3 months only with battery.

LOW ENERGY

A unique serial bus to plug on the electronic board an add on card that allows to easily interface the machine with alarms and to control the fogging system even from remote. A standard protocol for all machines.

SMART BUS STANDARD PROTOCOL

UR FOG fogging systems are innovative in their technology and performances, in order to guarantee the most effective protection against thefts and they have different patents.

UR FOG fogging systems are certified after European regulation. Fog fluid is assessed as not dangerous for people and animals and does not leave residuals.
